MOTOR BOAT OF THE YEAR JUDGES VERDICT

"Every once in a while we come across a game changer. A boat so different, so superior to the existing market, that it doesn't just move design along, it shakes it to its core. The Sealine F42 is such a boat. With class best cabins, decks, stowage and performance it is as complete a cruiser as you will ever find. The fact that Sealine pulled it off is no great surprise, given its recent push for pioneering design, but the fact they managed it so spectacularly well in the 40ft market - a market populated by every big name in the game - is nothing short of remarkable"
